SCREEN PRINTING ON CHOCOLATE

We can now reproduce a logo, an image or a text with a high quality finish on the top of filled chocolates or on thin chocolate bars. The element that is to be reproduced is edited on a computer and printed with coloured cocoa butter on a transfer film using the screen printing process. The print is then transferred onto the filled chocolates or onto chocolate bars.

Screen printing is the ideal means of obtaining a crisp and opaque reproduction, with an even, solid colour, on milk or dark chocolate. Gold and white colours are available.

Because of the fees attached to the creation of an account and to printing process minimums, this process is recommended for orders of large quantities (250 chocolates or more).

ACCOUNT CREATION FEES

Fees of 100\$ + taxes apply to the first order for computer processing and preparation of the printing silk-screen. (reusable for subsequent orders).

SCREEN PRINTED FILLED CHOCOLATES

- Size : Square: 2.5cm X 2.5cm X 1cm Weight : 9 g
- Couverture: milk chocolate, bitter-sweet 60%, extra-bitter 70% or white chocolate.
